Fifty-Second Year

Grimsby, Ontario, Wednesday

## CITIZENS HEAR DETAILS OF HOME IMPROVEMENT PLAN

Members of Building Trades and Business Men's Assn. at Meeting Addressed By E. G. Strathy.

That increasing interest is being manifested in the Home Improvement Plan inaugurated to stimulate building activities and give employment to those out of work, was evidenced at the joint meeting of members of the building trades and the Grimsby Business Men's Association, held in the council chambers, Grimsby, on Monday evening. A representative gathering, including citizens of both the town and township, was present to hear further details of the plan which was fully explained by E. J. Strathy, district representative of the Ontario Advisory Committee.

Ex-Mayor McPherson, chairman of the local Advisory Committee, presided.

### Explains Plan

Mr. Strathy, in his address, again emphasized the benefits to be derived from the plan under which loans are made to home owners who desire to improve their properties.

He afterwards responded to many enquiries from those in the audience as to the operation of the plan.

### Will Not Increase Assessment

Mr. Strathy directed attention to the fact that under the Assessment Amendment Act this year the value of improvements made to dwellings under the loans obtained through the

## Grimsby Chapter, O.E.S. Elects Its Officers

The annual election of officers of Grimsby Chapter, No. 105, O.E.S., was held on Tuesday evening with Worthy Matron, Sister M. L. Farrell, in the chair. The following officers were elected: Worthy Matron, Mrs. Lorne Jacobs; Worthy Patron, Mr. Frank Hitchman; Associate Matron, Mrs. L. Craig; Associate Patron, Mr. David Cloughley; Sec'y., Miss Janet Flott; Treas., Miss L. M. Farrell; Conduetress, Miss Alta VanMere; Associate Conduetress, Mrs. J. Chambers; Trustees, Mrs. D. Cloughley, Mr. D. Cloughley and Mr. F. Hitchman; auditors, Mrs. J. Wray, Mrs. S. Harris and Mrs. Gordon Lipat.

The initiation and birthday party of the Chapter will take place at a special meeting to be held on Tuesday, April 20.

At the conclusion of the meeting Mrs. Charles Farrell and her committee served delicious refreshments.

Guests were present from Hamilton, Smithville and Stoney Creek.

## Run of Sap Light As Yet—Crops Make Good Growth

The Fruit Branch, Department of Agriculture, reports as follows as to crops in this district under date of April 2nd.

Niagara District: Cool with snow-scrubs, turning milder. Apples—Steady movement from cold storage to local stores and markets, prices steady. Greenhouse Crops—Making good growth. Hothouse Cucumber supplies increasing. Seedlings for early outdoor planting mostly transplanted and doing well. Potatoes—Increased supplies being offered. Maple Syrup—Run of sap as yet only light.

Burlington District: Changeable with high winds and light snowfalls. Apples—Steady movement continues to local markets. Well coloured No. 1 varieties in good demand. Tomatoes—Hothouse making good growth. Potatoes—Local demand showing slight improvement. Quality generally good. OTHER VEGETABLES—Supplies becoming rapidly depleted. Hothouse Vegetables increasing, with good demand. Maple Syrup—Light runs of sap. Very little syrup as yet.

### FOUND GUILTY

Louis Horton, in Tuesday's county police court after his remand from Monday, heard a charge of alleged theft of \$65.99 from his employer at Grimsby, read against him. Accused elected for summary trial and entered a plea of guilty to the charge. Crown Attorney Lancaster suggested a week's remand for sentence and told the court that he would offer no evidence in the other charges, which would be withdrawn.

Chief Demill made the arrest.

## New Business Enterprise In Grimsby—Specialty Is Sign Painting

Mac Signs, a new business enterprise in Grimsby, have recently completed one of the largest signs of its kind that has ever been built and erected in the Niagara district.

This sign is 40 feet long and three feet high, being built in three sections. The letters are 26 inches high and are legible for a considerable distance.

The sign is for the Taylor Nurseries, Beamsville, and has been erected on the ridge roll of a 40 foot barn on the nursery property.

Seven angle iron braces and eight steel guy wires are necessary to keep the sign in place. The bracing and wiring it is estimated, will keep the sign stationary in a wind storm up to 80 miles an hour velocity.

The new firm which does all kinds of sign making and painting and car painting and truck lettering, is located in the rear portion of The Independent building on Oak St. and at the present time is busy on the construction and painting of eight circular signs for the Bolus restaurant at Jordan.

These signs are five feet across and have a circumference of 20 feet. When finished they will represent the reverse side of a Canadian five cent piece, being an exact replica of a nickel even to the garland leaves.

## Beamsville Postmaster Has Passed Away Was 87 Years Old

Hugh Sinclair, Postmaster at Beamsville for the past thirty-six years, and one of the pioneer residents of the village, died on Sunday in his eighty-seventh year.

Born in the village of Colborne, he came to Beamsville sixty-eight years ago. For several years he was engaged in the retail business with the late Alexander Allan. Later he was office manager and secretary for Senator William Gibson, continuing in that position until appointed as Postmaster in 1900. He took a keen interest in municipal affairs in his younger life and was always active in anything for the good of the community.

Fraternally, he was a member of the Supreme Council, Scottish Rite, 32nd Degree; a Past Master of Ivy Lodge, A. F. and A. M., and a member of Freestone Lodge, I.O.O.F. In religion, he was a staunch Presbyterian and in politics a Liberal.

He had served as a member of the Beamsville Library Board and the Board of Education for many years. He was also a director of the Clinton Agricultural Society.

On Aug. 31, 1876, he married Agnes Allan, and last summer they celebrated their diamond wedding anniversary.

Surviving are his widow; three sons, James A., William and John; and one daughter, Annie, all of Beamsville.

## \$10,000 Fire At St. Kitts Warehouse Destroyed

Fire late on Monday totally destroyed the warehouse of Aiken, Innes and MacLachlan, on the Welland Ship Canal, with a loss of \$10,000. The frame building was used for storage of valuable equipment by the contracting firm.

Machinery lost in the fire included five derrick motors, two gas engines, an air compressor, saw mill, pumps and draughting instruments. Much of it was moved into the building only Saturday.

The fire was discovered by canal employees but the building was already a mass of flames. Intruders breaking into the building are believed responsible for the fire. The loss is half covered by insurance.

## Coming Event

Mrs. Charles P. Coxall is entertaining at a Coronation Tea at her home on Livingston Ave., Wednesday, April 14th, from 3 until 6 o'clock. Proceeds in aid of the Ladies' Aid of St. John's Presbyterian Church.

## Highway Route Not Definitely Decided Says Highway Dept.

The Department of Highways, responding to an enquiry sent to it by the Township of North Grimsby following a recent protest meeting of North Grimsby property owners whose farms are affected, states that the department has not as yet definitely located the route of the proposed new highway which is to be built through the district. The township council was requested at this meeting to ascertain definitely the course the highway is to take.

The letter to the township clerk further intimates that the department has asked the engineer to furnish a plan of route to the municipality as soon as same is definitely decided upon.

For some time past meetings of fruit farmers have been held in various points in the Niagara Peninsula following the staking out of routes which go directly through various properties, cutting them up and seriously affecting their value.

This has led to many protests being lodged with the Highway Department, both by municipalities and meetings of farmers interested.

The securing of adequate compensation for damage caused by routing highway through their lands is at present engaging the attention of whose properties are affected.

(Continued on page 8)

## Farmers Save Grape Vine Cuttings—Sign Contracts with Concern

Hundreds of grape growers throughout Clinton and other townships contracted to save grape and fruit tree prunings for a concern whose purpose was to manufacture these cuttings into silk hose and other wearing apparel. It was expected under the agreements that all cuttings would be bought early this month and are wondering what to do with them, Herman R. Peterson, of Toronto, it is stated, in securing the contracts.

J. A. Charles of St. Catharines associates with Herman R. Peterson, Toronto, in the canvas last summer of the grape growers and securing their signatures to contracts for grape and fruit tree prunings, states that he is not in a position to speak on the matter of whether or not the growers were at liberty to burn their cuttings. He pointed out a clause in the contracts which is as follows: "If prunings shall not have been removed on or before May 10, the vendor shall have the right to destroy same by fire and the purchaser shall nevertheless pay to the vendor the purchase price of prunings at 50 cents an acre."

If any further information on the matter was to be forthcoming, said Mr. Charles, "it should be secured from R. K. Hodge, 5 High Park avenue, Toronto.

## INQUIRER SQUIRRE

### Jury's Verdict Near Smithville

Noonan Car Goultrol On Highway

That Professor William of the Ontario Agricultural College, Guelph, died from injuries in a collision between a car he was riding, and one driven by Catherine Noonan on No. 29 1/2 miles east of Smithville, 25, of last year, and that the was caused by the car driven by Noonan becoming out of control.

J. Poirier, Chief Coroner for County, at Smithville on Tues-

Critical injuries to both, wife of Prof. Mrs. Noonan, preventing the inquest.

## Home Hints

By LAURA KNIGHT

### VER BIG

... three very delicious ... coconut, custard and ... them all together with ... you can't help but get ... special such as Coconut ... . Because each part of ... in-one dessert is a delicious ... itself, it is three times as ... been all are served together. ... certainly goes over big with ... one from father to the children ... their expressions of pleasure ... a they find Coconut Custard Pie ... on the day's menu, are very genuine. It is one of those desserts which ... are a delight to behold. It will not ... tempt young digestion and is good ... for growing children because there is ... real good value and nourishment in ... this dessert.

Be sure that your ingredients are ... the best and particularly the coconut. If it is not fresh and moist, the ... whole flavor of the pie will be ruined. Fresh, moist, tender coconut can ... purchased from your grocer in ... cartons or tins and only the ... can make the pie ...

**Coconut Custard Pie**

Gently beaten:  $\frac{1}{2}$  cup sugar, 1 cup milk, 1 ... 1 cup coconut, pre-

pared 9-inch pie plate with ... 1-8-inch thick, allowing ... 1 inch beyond the ... go back to form stand- ... fingers. Combing in ... order given. Pour into ... dish in hot oven (450° F.) ... turn decrease heat to ... (350° F.) and bake 10 to 15 ... longer, or until knife inserted ... cut clean.

**Pep Up Fish Day**

Fish makes a tempting party dish. In the seasoning, one may attain quite appetizing effects from the use in cooking, and in sauces, of such simple seasoning agents as prepared mustard, Worcester sauce, ketchup, chili, tabasco, onion and vegetable stock preparation, while orange and lemon, grapes, slices of orange and lemon are appetizing.

Fish, if nicely prepared, is a dish

any cook may be proud to serve. It

can be used in so many ways. Fish

with fish, fish with fruit, fish with

crisp salad, with mushrooms, with onions and peppers and sweet herbs. Na-

ture is not narrow-minded. She pro-

vides the fruits of the earth ... and

combined with a little imagination,

fish day can be made as thrilling as

a Neapolitan banquet.

### A New Treatment For The Nail Biter

Mothers used to put bitter aloes

on nails to discourage the boy or

girl bent on nail destruction. Still

another way was to use a ruler. Ty-

ing hands behind backs, as a re-

minder, was resorted to, also. And of

course, lengthy scolding and lectures.

Such tactics were almost useless,

and besides, cruel.

Try an experiment and take your

Johnny, one fine day (if he is a ner-

vous little nail-chewer) on a round

of pleasure, with nothing to worry

him or lessons to burden him; put

on his best and most becoming

clothes and give him some money to

spend. Keep him laughing and sun-

ny all day, and also an eye out for

those hands. We'd venture to say

that not once has he lifted his

hands to his mouth, unless it was

from sheer over-excitement and joy.

Which proves that the habit is

emotional. Perhaps it is a direct

worry, such as lessons, or playmates,

or even family trouble that causes it.

But it may be that the whole

pressure of living is just too much.

Inferiority, lack of confidence, per-

haps a secret feeling of guilt, which

some children develop easily, are

worries that count for far more ner-

vousness than tangible reasons.

**Pants Will Soon Be Conventional Costumes for Women**

signer, Believes Skirts Will

Seem Outlandish in the

Near Future

HOLLYWOOD—Trousers for women

long ago passed the fad stage in

the movie colony, but now they have

the official blessing of a noted artist

and designer, Russell Patterson, of

New York.

"Men used to wear skirts, too,"

Patterson said. "The time is near

at hand when skirts for women will

seem as outlandish as they would

now for men."

He predicts women soon will wear

trousers for every phase of life,

formal and informal. He said they

will be adopted by business women,

and presently they will be as cor-

rect for evening wear in public as

they are now for morning wear in

private.

"Not the present type of 'slacks'"

Patterson said. "There will be

to be some fancy work done. But

essentially, pants are going to be the

conventional costume for women,

and it will be soon."

The television aerial at the Alex-

andra Palace, London, is 202 feet

high and rises to nearly 600 feet

above sea level.

The oyster-tree is really a man-

grove, found on the shores of the

Caribbean Sea, upon the branches of

which the oysters attach themselves

when the tide goes out. Mangroves

are among the few trees that flour-

ish in salt water.

Approximately 23,118 sterilization

operations have been performed to

date in the United States.

## Want Good To Overthrow Evil

Children Prefer Virtue to Triumph in Their Movies

"Children when they go to the cinema, definitely want to see evil replaced by good. They look for bad authority to be overthrown and for the ultimate triumph of the right."

This was the conclusion drawn by Dr. Emanuel Miller, a director of the Child Guidance Clinic, at a conference held in London, England, recently to consider how special film entertainment could be provided for children.

"It is true," Dr. Miller continued, according to the Christian Science Monitor, "that many children seem to have inborn aggressive or destructive tendencies; that is why they like eventfulness in the cinema expressed in action and speed. But roughhouse stuff must be of the slapstick variety if it is to please them; cruelty or brutality is not to their taste."

This fits in with conclusions reached some time ago by Dr. Cyril Burt, member of the Industrial Research Board, whose studies in the problems of juvenile delinquency are well known. He is convinced that the youngster who commits some petty crime and then tells the judge that he "saw it on the film" is disclosing only a part of the truth.

He may have imitated the methods shown in gangster stories, and to that extent they are to be deplored, but the motive which impelled him to unlawful activity must be sought outside the cinema.

### DEMAND BELIEVABLE TALES

The conference heard that children are interested in nature stories and pictures of animals, particularly the familiar ones, especially if the stories are wrapped up in some adventure or in the activities of explorers.

Historical or literary subjects are liked only if they conform to reality. Strange as it may seem to those accustomed to associate fairy stories with children, it was said that they are merely bored by anything that is historically unbelievable.

There is apparently no difficulty in obtaining a sufficient supply of short films suitable for children, but special performances for the youngsters, it was revealed, are given only by 10 to 15 per cent. of the cinemas in Britain, and by them not more than once a week.

## Servant Retained By British Queen

Simple Scottish Maid Was Served Her Majesty for 25 Years

DINGWALL, SCOTLAND.—Amid the grandeur of Buckingham Palace, Queen Elizabeth will be attended by the simple Scottish maid who has served her for 25 years.

Catherine MacLean, daughter of a Dingwall builder, faithfully worked for her mistress when she was Lady Elizabeth Bowes-Lyon and later as the grandeur of Buckingham Palace, Queen Elizabeth of York, but she feared that she never would be skilled sufficiently to wait upon a queen.

"If you cannot do it for me, Catherine," cried Her Majesty, "who can? I cannot do without you now."

"With that," wrote Catherine MacLean to a Dingwall friend, "Her Majesty threw her arms around my neck and kissed me, saying: 'I shall try to make Buckingham Palace as bright and cheerful and homely as 145 Piccadilly.'"

### You Bet Your Life

Written the Vancouver Sun:—If a man were to bet \$17,000,000 against \$1 that he could toss a book into the air and catch it as it falls, he certainly would be thought to be foolish.

He probably would win, but the small gain would not be worth the huge risk.

By the same token, the pedestrian who risk all the remaining minutes of his life just to save a single minute by crossing the street recklessly, is an exceedingly foolish man.

In a booklet, "You Bet Your Life" that has just issued, a prominent insurance company uses the above illustration, among others to demonstrate the folly of gambling with your life.

Cold Honeymoon:—A newly-wed couple have just finished a honeymoon, spent in a tent, during a blizzard, amid snow-drifts, at Tivoli-leje, Denmark.

Here, instead of using electric drills, pitmen are cutting away coal with high-powered water sprays, and at the Kizel mines in the Northern Urals one man recently cut eleven tons of coal in eight minutes.

Discharged under terrific pressure the jet carves up coal with uncanny ease. Two cubic metres of water suffice to remove a ton. There is not the slightest risk of combustion, and the flood danger is eliminated by suction pumps connected with the surface works.

The town council cannot possibly dream of hewing 750 tons of coal in a single day. This fantastic feat has become possible, according to scientific evidence, in Russia.

The jet carves up coal with uncanny ease. Two cubic metres of water suffice to remove a ton. There is not the slightest risk of combustion, and the flood danger is eliminated by suction pumps connected with the surface works.

## Life at Guelph Will Be Harder

No More Trusties, Dormitories or Defenceless Guards, Says Nixon

TORONTO.—Provincial Secretary Harry Nixon announced recently the system of "trusties" prisoners at the Ontario Reformatory, Guelph, would be gradually abandoned and more rigid precautions imposed.

Mr. Nixon said many recommendations made in the report of Judge James Madden, who investigated the January riot at the reformatory, would be carried out.

BEGINNING TO USE CELLS

The dormitory system will be done away with gradually, Mr. Nixon said. Construction of a new cell-block will be started almost immediately and the department will provide single cells for prisoners as quickly as possible.

Certain recommendations in the report have been put into effect. Twenty guards have been added, all outside guards have been armed, adequate supplies of arms and tear gas have been stored.

The "Show Place" aspect of the reformatory grounds, criticized by Judge Madden, will not be destroyed.

The Provincial Secretary was favorably disposed toward the abolition of the five-man parole board and the substitution of a full-time official, as suggested by Judge Madden, but legislation for the purpose will not be introduced this session.

Mr. Nixon said the evidence against rioting inmates of the reformatory would be given to the Wellington Crown Attorney for his action. Judge Madden recommended the prosecution of 22 prisoners who escaped, of three on charges of arson and of others on charges of illegal assembly and rioting.

### WILL KEEP PROMISE

He said the promise of amnesty to escaped prisoners who returned voluntarily would be kept. Judge Madden's recommendation was for prosecution of those who were picked up by police or guards.

Sergt. Maxwell, one of the two senior officers whose retirement was advised by Judge Madden, had already been retired, said Mr. Nixon. He did not say whether Sergt. McGuire would be retired.

### Sculptor Objects To Hiding Nudity

Objects to Female Nudes Being Dressed at Alma Mater

NEW YORK—Fig leaves for his males, yes, but nary a wisp will be needed. Sculptor George Gray Barnard tolerate over the charms of his female nudes.

He has advised the president of Kankakee, Ill., public school board, Alfred Beaumont, threatening to withdraw his recent gift of \$100,000 worth of statuary to his alma mater, Kankakee Central School, if reports reaching him the figures were being "dressed" were true.

The sculptor had received neas his gift collection, consisting of 50 pieces among which were a number of nudes, had created a furor when they were unveiled at Kankakee.

The nudes were hurriedly covered and a headstone cutter called in to tailor marble trousers for the males and sandstone panties for the females, Barnard said.

"If this is true, I must withdraw my gift," Barnard wired Beaumont. "Covering male statues with fig leaves the usual museum way I heartily agree to, but the female statues must not be touched."

The 73-year-old winner of many international awards said he quite understood that male figures exhibited in school rooms should be covered with fig leaves so as not to shock the children."

"I well remember when as a young boy I was

# SUNDAY SCHOOL LESSON

**LESSON II.**  
The Sin of Adam and Eve  
Genesis 3: 1-4: 26  
Printed Text—Genesis 3: 1-15  
Golden Text—The soul that sinneth,  
it shall die.—Ezekiel 18: 4.

**THE LESSON IN ITS SETTING**  
Time.—We do not know when the temptation of our first parents took place. The date commonly given is about 4000 B.C. All we know is that there were no human people before Adam and Eve and all mankind on earth today descends from them.

Place.—The Garden of Eden, the exact location of which is not known.

"Now the serpent was more subtle than any beast of the field which Jehovah God had made."—That more than the serpent was present is suggested by the speech and the reasoning powers displayed, but it is rendered certain by a comparison of Rev. 12: 9 and 20: 2, where the serpent is identified with Satan. That Satan was the real tempter is additionally assured by John 8: 44; 2 Cor. 11: 8; 1 Tim. 2: 14; 1 John 3: 8.

"And he said unto the woman, 'The tempter addresses the woman as the more susceptible and unguarded of the two creatures he would betray. Undoubtedly, the woman was alone, and, while the point need not be stressed, it is when we are alone that temptation most powerfully assails us.'

"Ye have not eat of any tree of the garden!"—Satan begins his temptation, and this should be most carefully noticed by attacking the word of God.

"And the woman said unto the serpent, Of the fruit of the trees of the garden we may eat. But of the fruit of the tree which is in the midst of the garden, God hath said, Ye shall not eat of it, neither shall ye touch it, lest ye die."—To begin with, the woman made a great mistake in arguing with Satan. She should have deliberately demanded that he leave her presence—Be subject, therefore, unto God; but resist the devil, and he will flee from you. (James 4: 7). As soon as we begin to argue with Satan about the word of God, we shall be compromising with the sin into which he would lead us.

"And the serpent said unto the woman, Ye shall not surely die."—This is the first lie told in human history; others were soon to follow. This denial sounds as strong as possible; the brevity and completeness of the expression make the contradiction absolute.

"For God doth know that in the day ye eat thereof, then your eyes shall be opened, and ye shall be as God, knowing good and evil."—Satan here appeals to the woman's pride, and, at the same time, leads her to almost hate God, for having as he would insist, cheated her of life's highest privileges. Satan promised her two things if she would eat of this tree: that her eyes should be opened, and that she would be as God, in that she would know good and evil. Satan himself had fallen from his high place in heaven because he attempted to be as God. (Isa. 14: 12-14; 2 Thess. 2: 4).

"And when the woman saw that the tree was good for food, and that it was a delight to the eyes, and that the tree was to be desired to make one wise."—St. John speaks of "the lust of the flesh, and the lust of the eyes, and the vain-glory of life" (1 John 2: 16). The first is here to be found in the phrase, "good for food"; the second in the phrase, "a delight to the eyes"; and the last in the phrase "to be desired to make one wise." Christ's three-fold temptation in the wilderness involved these three elements.

"She took of the fruit thereof, and did eat."—She did this deed. Satan did not do it for her, the tree did not do it, the garden did not do it, her environment and circumstances did not do it, and God did not do it. It was surely not her heredity that led her to do this deed. This deed was her own personal, willful, responsible act, and the blame of it must rest on her forever.

"And she gave also unto her husband with her, and he did eat."—Eve was given to Adam as a helpmeet; instead she here exercises her power over Adam, and takes advantage of his love and high regard for her in leading him into the same sin in which she had just indulged. There was every reason in the world why Eve should not have yielded to this temptation. She was not bound by any previous habits of indulgence. God had distinctly given her a command not to do what she did do. God had given her a command for life. The temptation came through an animal beneath her, not through an angel above her, and,

finally, there was not the slightest threat on the part of Satan to force her into this sin.

"And the eyes of them both were opened."—Thus far the promise of Satan was kept, but never did Eve dream that the consequences of her sin would be what she now discovered them to be.

"And they knew that they were naked; and they sewed fig-leaves together, and made for themselves aprons."—A sense of shame, a consciousness of guilt now possessed our first parents, who, up to this day, knew nothing but innocence. They had a knowledge of sin, of personal guilt, of broken law which was never to leave the human heart, and never will until the redeemed ones of God are in glory.

"And they heard the voice of Jehovah God walking in the garden in the cool of the day; and the man and his wife hid themselves from the presence of Jehovah God among the trees of the garden."—The voice of the Lord which they heard in the garden was either "the noise of his footsteps" (cf. Lev. 26: 12; Deut. 23: 14; 2 Sam. 5: 24); or the thunder that accompanied his approach (cf. Ex. 9: 23; Job 37: 4, 5; Psalm 29: 3, 9); for the sound of his voice, as Calvin and others think; or, probably, all four." And Eve hid themselves between the trees of the garden, because they knew they were guilty of sin and had disobeyed God, who was now approaching them.

"And Jehovah God called unto the man, and said unto him, Where art thou?"—This is one of the saddest and yet most precious verses in the Bible. It is the first question ever asked by God in the Holy Scriptures, and it was asked, not that God did not know where his sinning creatures were, but that he might get them to confess where they were.

"And he said, I heard thy voice in the garden, and I was afraid."—This is the first occurrence of the word "fear" in the Bible. It will be found again and again as human history is recorded. But the voice from heaven, often through angels, and, ultimately, through the Lord Jesus Christ, is "fear not," providing man accepts God's gracious redemption.

"Because I was naked; and I hid myself."—Sad it is to note that man's first word to God, as far as the divine record goes, was a lie. Man did not hide himself because he was naked, for he was created naked, and often before this he had fellowship with God and never had thought of hiding. Furthermore, in this case, he was not naked, for he had devised for himself a covering to hide his nakedness. The truth was that he hid himself because he had sinned, and was afraid of God, but he would not acknowledge it.

"And he said, Who told thee that thou wast naked? Hast thou eaten of the tree, whereof I commanded thee that thou shouldest not eat?" Thus God at once points to Adam as the true cause of his nakedness and intimacy with God. She won't just dance in Goldwyn pictures, but will be groomed as a dramatic player.

"And the man said, The woman whom thou gavest to be with me, she gave me of the tree, and I did eat." It is cowardly of Adam to attempt to blame Eve for his fall, as if Eve's giving him of the fruit of the tree was any reason why Adam should have partaken of it.

"And Jehovah God said unto the woman, What is this thou hast done? And the woman said, The serpent beguiled me, and I did eat." Let particular attention be paid to what the woman said regarding her sin: The serpent beguiled me. Literally this word means deceived, and clearly indicates that Eve knew she had been tricked by the devil, and that she had not obtained by her sin the things which Satan had promised her. Every man can testify that sin is the great deceiver.

"And Jehovah God said unto the serpent, Because thou hast done this, cursed art thou above all cattle and above every beast of the field, upon thy belly shalt thou go, and dust shall thou eat all the days of thy life." The serpent is allowed no trial. This is not Satan's initial sin. This sentence has a literal application to the serpent. The curse of the serpent lies in a more groveling nature than that of the other land animals. This appears in its going on its belly and its eating the dust.

"And I will put enmity between thee and the woman, and between thy seed and her seed: he shall bruise thy head, and thou shalt bruise his heel." This is the first promise and prophecy of Christ in the Scriptures and, as Dr. A. T. Pierson well said: As the oak is germinating in the acorn, and the eagle in the egg, all subsequent Messianic prophecies of the Old Testament are here in germ. There is sacredly added, in the whole afterglow of such prophecy, one idea that is absolutely new, other predictions growing out of and expanding this germinal prediction.

Attacks Court Plan as Peril to Democracy

Dr. Harold W. Dodds, president of Princeton University, telling the Senate Judiciary Committee that he feared the proposed Supreme Court change was a first step toward authoritarian government.

## Cost of Living Shows Slow Upward Trend

### Movie-radio gossip

By DOROTHY

Edgar Bergen, the ventriloquist who has become such a favorite on the Rudy Vallee radio hour, has joined the wonderful array of comics, opera singers and dancers that Sam Goldwyn has lined up for his Goldwyn Follies. Bergen's skill as a ventriloquist was developed when he was 12, a youngster. He liked to play jokes on his mother, making strange voices call to her from various parts of the room. Later he worked his way through Northwestern University giving shows at college parties.

Apparently Sam Goldwyn won't be happy until he signs up simply everyone of note in the entertainment world for his Follies company. Over in London he has put Vera Zorina, sensational young ballerina, under contract. You may have seen her in person, for last year and the year before she toured the United States, playing in one hundred and ten cities with the Monte Carlo ballet company. She won't just dance in Goldwyn pictures, but will be groomed as a dramatic player.

Jane Withers just dares any kidnapper to come around her house threatening her now. In addition to her usual bodyguard, a Texas stranger who looks as if he could rout an army single-handed, her father is usually around and he has been sworn in as a deputy sheriff, complete with guns. Furthermore, there is an electric signal beside her bed which rings a bell in all the police stations near Beverly Hills. Everybody is betting that the mischievous Jane will never be able to resist pushing the button just once, just to see the police come dashing to her rescue.

ODDS AND ENDS: Janet Gaynor slipped out of Hollywood and went to New York for a vacation, and now she says she won't come back until she can play in a comedy . . . Skipper, the famous wire-haired terrier whom you know as Asta in "The Thin Man" pictures, has a big part in the RKO picture, "China Passage" . . . Joan Crawford has launched a new style, wearing old-fashioned bead bracelets that match the color and design of her print dresses . . . Sonja Henie cancelled the rest of her personal appearance tour and hurried back to Hollywood to make pictures. Maybe the rumor that Tyrone Power was rushing other girls had something to do with her impatience to return . . . Bobby Breen is going to star in a new radio serial called "The Singing Kid" for National Broadcasting . . . Another program to watch for is Paramount's Sunday morning hour that will be staged at the studio.

OTTAWA—The cost-of-living index of the Department of Labor continued its gentle upward trend in February, the coming issue of the Labor Gazette will show.

The cost per week of a family budget of staple foods, fuel, lighting and rent was calculated at \$17.12, as compared to \$17.04 in January, \$16.58 for February 1936, \$16 for February 1935, \$16.41 for June 1933 and \$22.12 for February 1930.

The wholesale price index was 82 at the end of February, compared to 81.5 at the end of January, due largely to a rise in the price of iron and steel and certain non-ferrous metals. The wholesale index was 72.5 in February 1936, 71.8 in February 1935, 68.5 in February, 1933 and 93.9 in February 1930.

5

The London fire department answers approximately 4,200 calls annually, and nearly one-half of these are false alarms or malicious calls.

### Princess Sibylla of Sweden And Her Daughters

This picture of the family of Prince Gustaf of Sweden was made on the occasion of the baptism of his infant daughter Princess Birgitta. Photo shows: Princess Sibylla of Sweden (wife of Prince Gustaf Adolf) with her daughter Princess Margaret and the infant Princess Birgitta. The newly-christened Princess is a great-grandmother of the Duke of Connaught, former Governor-General of Canada.

## Farm Problems

Conducted by  
PROFESSOR HENRY G. BELL

with the co-operation of the various departments of Ontario Agricultural College

QUESTION:—"What is considered the best way to handle manure so as to get the most out of it? Someone advised us to leave the manure in the barnyard until you could draw it out and plow it under. We have a spreader, and this year we drive up on the pile with the horse and stone-boats every day and as there is not much straw in it the pile is frozen too much to use a spreader like I see some farmers doing this winter. Would it be better not to drive on it so it could heat, and be able to draw it out frequently?"—A. S. G., Oxford County.

ANSWER:—"Regarding the handling of manure: If you can keep it fairly well compacted in the barnyard, so that the liquid manure is not lost, you will retain the largest amount of plantfood in it. I believe it is all right for you to drive on the manure pile to keep it fairly well compacted. If you have the labor to take it out in the Spring, as soon as the weather will permit, you should get good results by handling it this way.

QUESTION:—"What would you recommend for top dressing of Fall wheat this Spring? (Fall application of 150-200 lbs. of 2-12-10). What is the most economical and effective?"—Ammo-Phos, Cyanamid, Sulphate of Ammonia, and Nitrate of Soda?

2. Is it possible that a sandy clay loam with lime stones in it can be lacking the very lime necessary for plant growth?

3. Could I expect, under fair growing conditions, a good yield of barley by using about 4-25-20 in available plantfood in fertilizer on light sandy clay loam, high, western slope along the river, the soil not very productive, plowed last summer. To add some more nitrogen and kill the mustard, I intend to top dress with 50 lbs. of Cyanamid. Would like to know if this would be very harmful to the barley?

4. Has Cyanamid any advantage over Sulphate of Ammonia? Can it be mixed with Superphosphate and Murate of Soda. Nitrate of Soda is immediately soluble and there is danger that you may lose some of it if heavy rains come immediately after it is applied. Sulphate of Am-

monia is likewise soluble, but to a large extent has to wait until the soil warms up sufficiently for bacterial action to change the Sulphate form of Ammonia to Nitrate in which form it is taken up by the crop. Sulphate of Ammonia is a little slower than Nitrate of Soda, and the results are prolonged.

Ammo-Phos would add Phosphoric acid, as well as Nitrogen, which you have already added in the 12 per cent in your 2-12-10. Cyanamid gives best results if it is worked into the damp soil, therefore I would recommend it as a top dressing for wheat.

2. I have known soils with lime stones in them to be lacking in available lime for crops, but this is not usually the case. Would it not be well to send us a sample of the soil (about ½ pint) so that we may test it and tell you whether it needs lime or does not. Mail the sample in a little cotton bag, addressing it to the Department of Chemistry, O.A.C., Guelph, Ont. Please write me at the same time as you send the sample. There is no charge for the testing.

3. 4-25-20 would be a well balanced fertilizer for barley. It is a little higher than double 2-12-10, and 2-12-10 has been found in our tests and by many others to be best adapted for production of malting barley on a medium to sandy loam soil.

A top-dressing with 50 lbs. of Cyanamid to kill mustard would be in the right direction. It will not be permanently harmful to the growing barley. It may turn a few of the leaves yellow, but the added nitrogen will help the barley recover from this temporary setback very rapidly.

4. Cyanamid carries 22 lbs. of nitrogen and 10 lbs. of lime to the 100 lbs. It is therefore distinctly alkaline in its action on the soil, while Sulphate of Ammonia is decidedly acid in its action on the soil. Cyanamid cannot be mixed in large quantities with Superphosphate. If it is so mixed, the lime of the Cyanamid will revert or turn back the soluble phosphate in the Superphosphate to the insoluble form. Cyanamid can be mixed with Murate of Potash without any ill effects.

Cleaning the interior stonework of York Cathedral will occupy twenty years. These are portions of the building that haven't been cleaned for 600 years.

## Island Debts Increasing

United Kingdom's Grants For Newfoundland Total \$7,934,954.

ST. JOHN'S, Nfld.—Total grants-in-aid from the United Kingdom government since Newfoundland financial difficulties began in the fiscal year 1932-33 until June 30, 1936, amounted to \$7,934,954, according to the report of the comptroller and auditor general.

During the years under review the public debt increased by approximately \$1,000,000—a result of borrowing from the Colonial development fund—and now stands at a total of approximately \$28,425,000, comprising sterling stock of \$29,163,226 and a loan from the Canadian banks, guaranteed by the Dominion of Canada of \$625,000.

The report included a careful analysis of public revenue and expenditure, secretaries of the various departments giving explanatory notes, and comment by Auditor General Wild.

The expenditure during the past fiscal year, including what would ordinarily have been charged to capital outlay, was \$12,005,206. Revenue for the same period, including the grant-in-aid of \$1,469,000 and the colonial development fund loan of \$1,082,000, fell short of expenditure by \$817,000. The deficiency was made good by withdrawal from exchequer balances, which now stand at \$1,204,881.

## Arcadia New York

### Highlights and Lowlights Of The Big Metropolis

NEW YORK.—So This Is New York; Madison Square Garden is neither a garden nor anywhere near Madison Square—the only horticultural exhibits which the place has ever housed are cauliflower ears.

Grand Central Palace is anything but a regular edifice—it is an office building.

Times Square is a triangle.

There has never been a polo game in the Polo Grounds.

Broadway, as it sprawls through lower Manhattan, is one of the city's narrowest thoroughfares.

Few musical shows have show girls any more; the night clubs have most of them.

Coney Island is a peninsula.

George M. Cohen has not set foot upon the stage of the George M. Cohen theatre in more than ten years.

Hariem, which was that section of New York set aside for the Dutch, is now almost 100 per cent colored.

It takes 45 minutes to fly from Philadelphia to New York—and one hour to get from the airport to Times Square.

Manhattan's only authentic Argentine night club is run by an Egyptian.

If a motorist does more than 25 miles an hour on Gotham's uptown Speedway, he gets a ticket for speeding.

"Death Avenue," or, as the city directory calls it, a thoroughfare, Eleventh Avenue, has no funeral establishments.

The most completely typical New York night spot is tabbed "The Hollywood."

Sullivan Street is populated for the most part by Italians.

The Ubangi Club, Harlem's hottest den of seedy entertainment is owned by white folks.

Most of the foreign trapeze artists, jugglers, etc., stop at the Hotel America.

## Local Items of Interest

The funeral of Mr. J. H. Smith, Harriston, father of Mrs. V. Luey of Grimsby, will take place on Thursday of this week. Mr. Smith was also the father of the late Mrs. Harvey Hurst, and was well known in this district.

The Literary Meeting of the I.O.D.E. will be held on Monday afternoon next, April 12th at three o'clock in the Chapter Room when Mrs. Cline will speak on the subject, "The Ring And The Book", Browning's great masterpiece. All those interested are welcome.

Order your magazines through a Grimsby agent. All Canadian, English and American Magazines supplied at regular and special rates. Renewals will be appreciated at any time. Phone your orders to 180, or I will call at your request. W. E. Cullingford, Grimsby, Ont.

At the Hamilton Dog and Kennel show held in that city on Saturday Miss Audrey Palmer, daughter of Charles A. and Mrs. Palmer, was successful in winning two first prizes, a special and winners, with her dog Black Beauty, in the highly competitive Chinese Chow class. Miss Palmer also turned down a handsome offer for her dog from a Port Huron, Mich., fancier.

Mr. Lorne Jacobs has accepted a position with the firm of Crane Limited, Hamilton, dealers in plumbing supplies, and commenced his duties on Wednesday of this week. For the past twelve years Mr. Jacobs has been employed by Bromley, Cloughley and

## High School News

On Monday, March 29th, the Athletic Society held an informal dance in the School Auditorium. At intermission a light lunch comprising coffee and doughnuts was served to nearly thirty couples. Spec Norton and his orchestra supplied the dance music.

On Wednesday evening the Presbyterian Church and Literary Society presented some very interesting lantern slides of previous coronations. There was a large crowd in attendance and every one enjoyed the talk given by Mr. F. W. Rayfield very much.

The pre-Easter term reports will be given out to the students this week.

Metcalfe and latterly by Bromley and Metcalfe. Mr. and Mrs. Jacobs will continue to reside in Grimsby. Miss Jacobs of Winona will fill the vacancy caused by Mr. Jacobs' resignation.

The Evening Auxiliary of the Women's Missionary Society, with Miss E. R. Cullingford, President, was in charge of the service in Trinity United Church last Sunday evening. A large congregation was in attendance to witness the religious drama presented by Westdale Young People's Union of Hamilton. Due to the serious illness of the lady taking the leading part in the drama "The Challenge of the Cross", which was to have been given, the group from Centenary Church was unable to be present. However, the drama presented by the Young People from Westdale Church was most interesting and impressive. Ten players in costume dramatized the Easter story of "Joseph of Arimathea".

Mr. Lorne Jacobs has accepted a position with the firm of Crane Limited, Hamilton, dealers in plumbing supplies, and commenced his duties on Wednesday of this week. For the past twelve years Mr. Jacobs has been employed by Bromley, Cloughley and

SECRETARY OF GRAND LODGE  
A. F. & A. M. PASSES

The death of William McGregor Logan occurred shortly after noon on Thursday at Hamilton after an illness of 12 months. He was grand secretary of Grand Lodge, A.F. & A.M. of Canada, in the Province of Ontario, and was known to Masons throughout the length and breadth of Canada. He was formerly classics master of Hamilton Central Collegiate.

## START NEXT MONDAY

This is an excellent time to start a course at Park's. Intensive training, coupled with individual help and instruction, enables you to make rapid progress. Literature will be sent upon request.

PARK BUSINESS COLLEGE  
72 James St. N., Hamilton, Ont.St. Andrew's A.Y.P.A.  
Entertain Delegates

The A.Y.P.A. of St. Andrew's church entertained the delegation of Lincoln and Welland local council Anglican Young People's Association in the Parish Hall on Monday evening. The guests included delegates from St. George's, St. Barnabas', St. Thomas', Church of the Good Shepherd and All Saints', of St. Catharines; Christ Church and All Saints' of Niagara Falls; Thorold, Welland, Niagara-on-the-Lake, Dain City, Stamford and Fonthill. Robert Hall, President of St. George's Church, St. Catharines, presided.

A motion was passed to eliminate the yearly stunt night in favour of the annual dramatic festival.

Reginald Green, president of the provincial council, A.Y.P.A., addressed the gathering, following which the first reading was given the motion providing for 24 beds for the new mission hospitals.

Mr. R. S. Unwin of Toronto spent the past few days in Grimsby.

Miss Marion Scott is visiting in Toronto this week.

Mr. and Mrs. Ray Hunter and family of Brantford visited on Sunday with Mrs. U. Stewart, Elizabeth St.

Mr. Walter McVicar left this week for New York City enroute to Bermuda.

Friends of Mr. Edward Brubaker, Oak Street are pleased to see him out again after several weeks' illness.

Mr. William Woolverton of Brooklyn, N.Y., was a recent visitor with friends at Grimsby.

Mr. and Mrs. B. W. Shantz and family were weekend visitors with Mr. Sheldon Dills, at Drumbo.

Mr. and Mrs. Fred DeLong and son, Kenneth, spent Saturday visiting Mrs. DeLong's aunt, Mrs. Jane Gardner.

Rev. J. Allan Ballard and Miss Maude Ballard have returned home from a week's holidays in New York.

Mr. John Liddle of Windsor spent the weekend with his parents, Mr. and Mrs. Thomas Liddle, Main East.

Mr. William Jose, Jr., of Grimsby Beach, has accepted a position with the firm of Canada Packers at Toronto.

Mr. and Mrs. L. J. Lawson and family of St. Catharines were weekend visitors at the home of Mr. and Mrs. William Shelton, Oak Street.

Mr. J. Charles West spent a couple of days the forepart of the week with Dr. and Mrs. McDerment at Port Hope.

Mrs. Mabel Nettleton of Strathroy, Ontario, spent last week, the guest of Mr. and Mrs. Andrew Smith, Mountain Street.

A number of masons from Grimsby attended the reception of the Grand Master at the Scottish Rite Cathedral in Hamilton on Monday evening.

Mrs. Morris and Miss C. Talbot have returned after spending Easter week with Mr. and Mrs. Frank Woolverton at Brooklyn, N.Y.

Mrs. C. D. Millyard and daughter Marilyn returned Sunday from a week's visit at London, Ontario, with Rev. E. J. and Mrs. Millyard.

Miss Dorothy Whiteside of Guelph spent a few days last week with Misses Frances Jarvis and Helen Cloughley.

Mr. and Mrs. S. R. A. Morton of Hamilton have rented the home at Grimsby Beach of the late Mrs. Weaver, Park Road.

Mr. and Mrs. C. L. Cooke and family of Detroit, spent the week-end with Mr. & Mrs. W. E. Cullingford, Main St. West.

Mrs. John D. McConachie of Newmarket is spending a week at the home of her parents, Mr. and Mrs. Albert Marsh, Robinson Street North.

Mr. Gerald Carson has returned to Grimsby for the summer months after a most successful season as defenceman of the Montreal Maroons Hockey Team.

Several masons from Grimsby attended the funeral in Hamilton on Saturday of William McGregor Logan, grand secretary of Grand Lodge, A.F. & A.M., in the Province of Ontario.

About one hundred guests attended the first open bridge of the season held by the Deer Park Golf and Country Club in the Village Inn on Tuesday evening. Prizes were won by Mrs. Hugh Campbell and Mr. Wade, senior division, and Mrs. R. Terry and L. R. Robbie. The club wishes to express its appreciation to Mr. and Mrs. Graham for the use of the Village Inn.

## COUNTY COURT

County Court opened Monday morning with His Honor Judge J. G. S. Starbuck presiding. Only one case remained on the calendar for a hearing, that of Wells vs. Peluso, an action arising from a motor accident. The case of Juroski-Cukileski was set over for trial during the week of May 19th.

## OBITUARY

Mrs. J. J. Bowlsbaugh

The Rock Chapel community on the Ridge Road, as well as numerous friends in the Niagara district suffered a severe loss Tuesday morning in the death of Mrs. J. J. Bowlsbaugh at her home here, following a lingering illness, the result of a major operation two years ago.

Mrs. Bowlsbaugh was formerly Miss Clara Walker, daughter of the late Mr. and Mrs. J. B. Walker of Stoney Creek, and had lived in that village and in North Grimsby township, all her life.

Her activities in the life of the neighborhood were numerous. She was a member of the Rock Chapel United Church and Sunday School, and had served as treasurer of the W. M. F. of that church for the past eleven years.

An ardent lover of flowers she had taken a keen interest in the Horticultural Society of Vinemount of which she was also treasurer. As district secretary of the South Wentworth Women's Institute she had charge of the fund for the memorial portrait of Mrs. Hoodless, founder of the Institute, and her name was well-known in Institute circles, over the province in that connection.

But it is in the social life of the community that her loss will be felt most keenly, her home having been always open to her neighbours and young people especially.

During the last few months she won the admiration and respect of everyone to an unusual degree by her patience and industry under adverse conditions.

Left to mourn her loss, besides her husband are two daughters, Reita and Orpha, and one son, Ralph, all at home; two brothers, J. A. Walker of Stoney Creek, and Dr. F. M. Walker of Alliston; and three sisters, Mrs. Hamilton Lee of Stoney Creek; Mrs. G. A. Mead of Bay City, Mich., and Mrs. W. M. Aikenhead of Smithville. The funeral will be held on Thursday afternoon at 2:30 p.m. from her home, thence to Queen's Lawn Cemetery for interment.

Mrs. Katherine M. Grout

A well known resident of Grimsby, where she had spent a greater portion of her life, Mrs. Katherine Maude Alexander Grout, widow of Kenneth Nelles Grout, passed away at the home of her son K. Alexander Grout, Hamilton, on March 30, April 5th, after a lingering illness.

Deceased was born in Stoney Creek, the youngest daughter of Rev. James Lynne Alexander and Emilia Nelles, and was a granddaughter of the late Colonel Robert Nelles, United Empire Loyalist, and pioneer of this district.

She was a sister of the late George Alexander, for many years Town Auditor and Dr. R. A. Alexander, a practicing physician in this district for over half a century. She was in her 74th year. Her husband predeceased her last year.

The late Mrs. Grout was a devout member of St. Andrew's Church, and for a number of years in the late eighties and early nineties was organist of St. Andrew's.

Surviving are three sons, Harold L. of Cayuga; K. Alexander, Hamilton and J. Arthur, Toronto.

The funeral took place on Wednesday afternoon, services being held in St. Andrew's Church, with Rev. J. Allan Ballard conducting, assisted by Rev. Higginson of Woodburn. Interment in St. Andrew's cemetery.

Pallbearers were the three sons, Harold L. K. Alexander and J. Arthur Grout; Nelles Rutherford, Lloyd Theal and H. C. C. Johnsons.

Robert Miller

Born in Saltfleet township on November 18, 1854, Robert Miller died on Saturday at the home of his daughter, Mrs. James Johnson, Smithville. His wife, formerly Miss Flora Hildreth, died on November 12, 1912, and a son, Arthur, on August 25, 1925. He leaves to mourn his passing, four daughters, Mrs. Fred Gennison, of Detroit; Mrs. George Lang and Mrs. Thomas Johnson, both of Hamilton, and Mrs. James Johnson, of Smithville, with whom he resided; also 15 grandchildren and 11 great-grandchildren. The funeral took place on Tuesday from Merritt's funeral home, Smithville, to the Swayze cemetery, Blythwood.

Mrs. Ernest Crossley

The death occurred Thursday of last week at her residence, 89 Ontario Avenue, Hamilton, of Mrs. Sarah (Babe) Armstrong, beloved wife of Ernest Crossley. Deceased was born at Hamilton Beach, surviving are her husband; one son, Myles Crossley; one daughter, Miss Dora Crossley, at home; her mother, Mrs. Sarah Armstrong, Hamilton Beach; one brother, Thomas Armstrong; one sister, Mrs. N. G. Waterbury, both of Hamilton Beach. Mrs. E. B. Murdoch, of Grimsby, is a niece.

The funeral was held Saturday af-

## NUPTIALS

UDELL—ECKFORD

A wedding took place quietly on Saturday evening at the residence of Mr. and Mrs. Walter Eckford, Queenston Road, St. Catharines, when their daughter Margaret, was married to Mr. George Udell, of Grimsby, son of Mr. and Mrs. M. Udell. Ferns and carnations decorated the house and Rev. F. R. Hendershot of Westminster United Church performed the ceremony. The bride, given in marriage by her father, wore her travelling dress of navy blue crepe with grey shoes and a corsage bouquet of lilies-of-the-valley, pink sweetpeas and forget-me-nots, and for travelling donned a grey hat and coat. Her sister, Miss Lenore Eckford, who was her only attendant, wore a gown of turquoise blue sheer with beige shoes and a corsage of sweetpeas. Mr. Douglas Udell was the groomsmen. Mrs. Eckford, mother of the bride, wore printed sheer crepe and Mrs. Udell chose a brown ensemble. Following a wedding trip to Rochester, Mr. and Mrs. Udell will reside in Grimsby.

## Health Column

1. THOUSANDS OF PEOPLE ARE STARVING TO DEATH ON THREE SQUARE MEALS PER DAY.

The reason is that their food is deficient in minerals. It's the mineral content of your food that counts, and the lack of minerals in the modern diet is a serious menace to Health. Vita-Kelp Tablets, the new Health Food, provide these minerals according to Nature's own prescription, and in the exact quantities all of us require. Get the Vita-Kelp habit for better Health.

Vita-Kelp Tablets are small and pleasant to take. Demand the Genuine Vita-Kelp. Good Health for only 3¢ a day.

2. TOOTH DECAY — the most prevalent disease of the civilized world today.

Dr. Melvin E. Page, D. D. S., says: "The principal cause of Dental Decay, Pyorrhœa and sore gums is a lack of a proper mineral balance in our modern diet."

He says further that Vita-Kelp Tablets, the new Health Food, will restore the proper mineral balance in the blood stream,

and correct these and many other deficiency diseases. Vita-Kelp Tablets are a pure food, and contain the vital minerals usually lacking in our modern diet.

Get the Vita-Kelp habit for good health. At all Druggists.

## Summary of the News

**Wheat Mixing Endorsed**  
VANCOUVER.—The practice of blending lower grades of wheat, permitted by law, allowed the merchandising and sale of lower grades at a profit to producers, said John Whittle of Vancouver, when he appeared before the Tugboat Royal Grain Commission Thursday.

Blending or mixing, said the General Manager of the Midland Pacific Terminal, Limited, aided sale of the wheat and should be continued. Mr. Whittle termed the practice "a service to the producer."

Provisions of the Canada Grain Act prevented mixing of the four top grades of wheat—No. 1 hard and Nos. 2, 3 and 4 Northern—but in other grades terminal companies treated the grain and sought to produce a wheat that was merchantable and of value to the buyer.

Loading of ships direct from freight cars carrying grain in bulk would be "commercially impossible," said Mr. Whittle, in explaining operation of terminal elevators. Direct freight car to ship loading might be done if the grain were sacked. All Canadian grain is handled in bulk.

**Farmers Open Road**  
SLIMAX, SASKE.—A road-opening "bed" is the latest thing in self-help introduced by 13 farmers of Frelon district, near here. Anxious about getting their seed grain over snow-drifted roads, they armed themselves with scoop shovels and cleared twelve miles of roads into Slimax.

**Protect Rail Crossing**  
GALT.—Present protection at the Dundas Street crossing of the Canadian Pacific Railway here, where 3 lives were snuffed out Good Friday is "inadequate," a Coroner's Jury declared at an inquest into the deaths of Mr. and Mrs. John Macey and Miss Olive Moore, all Ga't residents. The jury found the deaths of the three, passengers in an automobile driven by Macey, was accidentally and monstrated the train crew.

A rider to the verdict recommended establishment of a twenty-four-hour protection immediately and suggested steps be taken to provide more permanent protection. Because there are eight tracks at the crossing, on a heavily travelled main highway, the jury recommended standing freight cars be placed so as not to obstruct the view in either direction.

**Heavy Fire Loss**  
EDMONTON.—Loss of stock and damage to the warehouse of Western Transfer and Storage, Limited, in a fire here this week may reach \$25,000 it is estimated. Large quantities of wheat, some owned by Herman Trelle, world wheat king, were stored in the building.

**Should Pay Married Men More**  
LUBBOCK, TEXAS.—Dr. Paul Popone, Los Angeles sociologist criticized the existing system of paying bachelors and married men the same wage scale as "economically unfair, socially unjust and eugenically unsound." Addressing Texas Technological College students, he proposed a basic wage for all jobs, with an additional allowance "of, say, 20 per cent, for a wife and 15 per cent, for each dependent child."

**Anti-Lynching Bill**  
WASHINGTON.—The House Judicial Committee have voted 8 to 7 to report favorably an anti-lynching bill sponsored by Rep. Arthur W. Mitchell (D., Ill.), the only negro Congressman.

The measure carries a maximum penalty of five years in prison and a \$5,000 fine for any state, city or \$5,000 fine for any state, city or permit a prisoner to be taken from his custody and "injured or put to death."

**Girls Poor Dishwashers**  
WOODSTOCK.—Canadian girls are not efficient in dishwashing, and are nearly a total loss in earning socks, Miss Maud McIntyre, general secretary of the Woodstock Y.W.C.A., told members of a service club here.

**Use Roller Skates**  
TORONTO.—Somewhat lost on 100,000 square feet of floor space in new and larger quarters, 18 employees of the Canadian Tire Corporation have solved the problem of providing snappy customer-service by wearing roller skates. Alfred Stevens, 200-pound manager, conceded that he and a few others had provided customers with as well as falling. But the experiment was such a success that 18 pairs of skates were ordered. They are the type used in roller-skating rinks.

**Canada's Population**  
Placed at 11,100,000  
OTTAWA.—The estimated population of Canada in 1937 is 11,100,000 according to a return tables in the House of Commons from the Department of Trade and Commerce for

Pierre Gauthier (Lib., Portneuf). At the last census, in 1931, the population was 10,376,786. Natural increase of births over deaths was then estimated at 135,956 a year. In the decade from 1921 to 1931 immigration amounted to 1,166,290. In the same period the natural increase of population was estimated at 1,362,000.

**Would Prevent Drug Stores Serving Meals**

TORONTO.—Dr. Gordon P. Jackson, medical officer of health, said his department had received protests from restaurants against the granting of vending licenses to chain and neighborhood drug stores to serve meals and lunches. Dr. Jackson said it was a matter for jurisdiction by the police commission or city council.

**"Fire-Bug"**  
SARNIA.—Police are patrolling the St. Clair River front here following a series of fires which investigators term the work of a "fire-bug."

Discovery of some oily waste, apparently taken from the journal boxes of railway freight cars near the scene of the outbreaks, prompted Inspector E. L. Jordan and Investigator P. S. D. Harding of the Ontario Fire Marshal's Department to express an opinion the fires were of incendiary origin and the work of one person.

The fire broke out at intervals. Three were started in the yards of the Laidlaw Belton Lumber Company and caused damage estimated at \$2,000. Others were in the old Grand Trunk freight shed, in a small frame building owned by Samuel Lampel and a sixth in the Sarnia Ice Company's ice barn. All occurred within two hours.

**Last Winter Mail**  
CHURCHILL.—The mail man headed for the Arctic this week.

The Royal Canadian Mounted Police dog team left here with a full load of first-class mail for many northern outposts, including the British Canadian Arctic expedition now wintering at Ropulse Bay, on the Arctic Circle at the top of Hudson Bay.

This will be the last mail delivered to the north from here until a boat sails for northern ports about Aug. 1.

**Farm Minister Acts Also As Pilot**

QUEBEC.—Hon. Boni Dussault, Quebec Minister of Agriculture, has no intention of confirming his activities

at the soil, he declares.

The Minister is a steamer pilot by profession and plans to pilot the steamship Manchester Port up the St. Lawrence to Montreal when she arrives from overseas in a few days.

"It will give me a rest," the pilot-legislator said.

**Radio-Phone For Ships**

OTTAWA.—To cope with perils of navigation on the Great Lakes the Government is seeking to have radio-telephone stations installed between the Head of the Lakes and Kingston. Lieut.-Commander C. P. Edwards, Chief of Air Services, announced here.

Ships which do not feel they can afford a wireless operator to carry on wireless code transmission probably would be willing to install telephone equipment if there were telephone stations easily reached on shore, Mr. Edwards said. A regular operator would not be necessary and any member of the ship's crew could call for help in time of emergency.

**Honors Vincent Massey**

ABERDEEN.—Aberdeen University has conferred an honorary degree of Doctor of Laws and Literature (LL.D.) upon Hon. Vincent Massey, Canadian High Commissioner. Principal of the university is Dr. W. Hamilton Fyfe, former Principal of Queen's University, Kingston, Ont.

**Canada's War Memorial**

OTTAWA.—The National War Monument will be erected in Ottawa some time this summer, Works Minister Cardin told the House of Commons this week.

The monument, the work of the March brothers, has been completed in England for many months. One reason for not bringing it to Ottawa has been the conflicting views on where it should be erected here. The Minister said the Government "will have to make up its mind pretty quick because it will be erected some time this summer."

The monument probably will be placed in Connaught Square, in the downtown section of the city, which eventually will be a wide plaza.

**Threaten Strike in May**

LONDON.—Autobus conductors and drivers threaten to clog the Coronation machinery by calling a strike for early in May unless their present 8-hour working day is cut to 7½ hours. Ernest Bevin, General Secretary of the Transport Workers' Union, confirmed his organization had given the bus company a month to make up its mind. Employers indicated a willingness to discuss the matter, and it was believed a crisis would be averted.

**Merits of Latin**

TORONTO.—Attacking the proposed courses of study for secondary schools on the grounds that Latin was not included as a first-year subject,

Prof. C. R. Sissons of Victoria College charged that the revised courses were the greatest propaganda for private schools that had been promoted in our day."

It would be turning back the hands of the clock if the program went into operation in its present form, he maintained, craving the right for a school Principal to be allowed to choose between Latin and French in the first year.

Dr. George F. Rogers, Chief Inspector of Secondary Schools, replied it was likely permission would be granted to substitute Latin for French if a teacher craved it. But he did not think it would be a good thing to do. "We are not trying to kill Latin but to help it. We are trying to keep away from it a lot of pupils who are not congenitally disposed to Latin. A classics man, a principal not far from Toronto, tried out the experiment and found that the pupils in the second year made progress in Latin because they were a selected group," Dr. Rogers said.

The plan is to make French a compulsory subject in the first year; then in the second year, if the pupil has a taste for languages, he may take Latin.

**Board To Get Parley Report**

C.B.R.E. Officials Confer With C.N.R. on Higher-Pay Claims

MONTREAL.—Officers of the Canadian Brotherhood of Railway Employees announced Sunday night that a report on their Saturday wage conference with Canadian National Railways officials would be laid before the Smiley Conciliation Board.

WANT CONDITIONS AT  
TOWN DISPOSAL  
PLANT REMEDIED

(Continued from page 1)  
fect a considerable saving and that he would present full details with costs at the next meeting.

During the discussion, which preceded the passing of the motion regarding the town sewerage disposal plant, it was pointed out that the Ontario Department of Health had recommended several times that the system be corrected and had absolved themselves from any consequences if the system were not changed. J. Chilvers explained a plan which had been drawn up a few years ago and presented to the town, which would remedy the condition. The cost of the remodelling, about \$10,000, had seemed rather high and the plan had been left in abeyance ever since. After several had expressed the opinion that when it came to a matter of health, cost should be the last consideration, the motion previously mentioned was passed.

A motion recommending to the members of the Ratepayers' Association that they decorate their homes for the coronation and blossom time and another motion that the members of the executive of the Ratepayers' Association canvas their own wards for new members were the only other motions passed during the evening.

The Hydro purchase question caused considerable discussion, but no definite action was taken. Some members thought they should recommend immediate purchase and others wanted to have the purchase brought up at the January election with the establishing of a Public Utilities Commission at the same time.

The opinion was also expressed that as it seems definitely assured that the new highway north of the town is going to be built that it is up to the town to make the approach from that highway to the town as attractive as possible. One member mentioned that he had received the opinion of storekeeper who had faced a similar situation in another town and had never noticed any drop in his tourist trade since a highway had been put through cutting his town off from the through traffic.

AWAY BACK WHEN —  
(Continued from page 1)  
9th are correct, for I find the following motion, "That Jas. Johnson, Chas. Mahey and Richard Johnson, be a committee to interview Mr. E. A. Lancaster, (yes, Lincoln's Lan.) and find out whether our claims on Brantford Tournament Committee can be established or not, and if they can be established to proceed at once in a legal manner". The Brantford episode must have had an effect on the local equipment for all pieces of apparatus are reported in "bad order, including the treasury which was empty and the band was demanding the \$10 still due them. Try and collect.

At July 20th meeting company accepted an invitation to attend garden party at W. D. Kitchen's on July 23rd. Running team decided to go to Berlin and other members would also enter in all the races they could legally participate in. Going to clean up, the boys went to Berlin and Melville Lucas was acting-Chief and H. H. Farrell, acting-Captain. The big day was July 26th. And did the boys clean up. The minutes of Aug. 6th, show that they won first prize of \$75 in the hook and ladder race, and that Chief Lucas, pro tem, had an easy victory in the 100 yard race for Chiefs as well as winning the prize for the Youngest Chief on Parade. I don't think Mel. would be over 20 years old at that time. Just beating the other fellows to the draw. Company still owns the band \$5. Engine still sick. Other machinery well.

Mr. Lancaster offered to do what he could on the Brantford claims for 10 per cent. Now get this "That the secretary tender the thanks of the company to BRANTFORD, Smithville and Berlin for their hospitality". Sue 'em with one hand and pat them on the back with the other. Great game. Mr. Noakes asked the Captain of the running team what disposition they intended to make of the money won in Berlin, \$75 and Smithville \$15. A long and bitter discussion then followed and finally it was decided that expenses of team \$52.50, be paid and balance of \$27.50 be expended for some memorial of the victories and a committee was appointed to spend same.

## THIRTY MOUNTAIN

Mr. J. Sobey has secured the service of Mr. Wilcox, Smithville, and Mr. Blackwood has hired Norman Hayward, E. Hurst and Mr. S. Susicko of Toronto.

Mr. and Mrs. Jas. McCrea, and daughter of Niagara Falls, N.Y., spent the weekend with Mrs. J. McCrea. The latter returned home with them for a short time.

Her friends will regret the illness of Mrs. Nelson and will wish her a speedy recovery.

Mr. and Mrs. W. P. Millward, Hamilton and Mr. and Mrs. Cecil Millward of Hamilton Beach spent Sunday with Mrs. C. R. Millward.

Mr. and Mrs. Wm. Vail spent the past week in St. Catharines visiting Mr. and Mrs. Chas. Wardell.

Mrs. A. Pinfield spent Thursday with Mr. and Mrs. Curtis Miller.

Norman Haywood spent the weekend in Hamilton.

Mr. L. Carson of Espanola is spending three weeks at his home here.

Mr. & Mrs. H. C. Reeves of Hamilton Beach spent Friday with Mr. and Mrs. W. J. Carson.

Mr. and Mrs. J. Williams spent Sunday with Mr. and Mrs. J. Kemp. The Home and School Club had a very successful meeting and a splendid programme. The next meeting is to be April 15th. Come one, come all.

INQUIRY INTO PROF.  
SQUIRRELL'S DEATH

(Continued from page 1)  
stated at the accident. He had also helped remove the injured to the doctors' cars.

Constable Wood said he had driven his motorcycle all day without the sidecar and the wind had not bothered him at all.

Mrs. Gertrude Squirrell, wife of the dead man, said she was riding in the front seat beside her husband when the accident happened. "I saw the other car coming travelling in an unusual manner and I was alarmed. It looked to be driven by an inexperienced driver or an intoxicated person. I said to my husband to keep well to the right. The car was going fast. It was about to pass another car when I saw it. It passed the other car, cut in quite sharp then made a swerve to the left and hit us. We thought we were safe when it turned back into line. It shot straight at us. I think perhaps it was going too fast and out of control. There was a wind but not enough to cause any trouble I don't think", she swore.

Edward Noonan, husband of the other driver, said he was in the front seat with his wife. He thought perhaps the wind had caused the car to swerve or else a deflated tire might have been the cause. Their car, he said, had swerved after passing another. His wife had got it back into line when there was a sudden or more violent swerve.

Mr. and Mrs. Roy D. Patterson, of St. Thomas, eyewitnesses of the crash, testified that they saw the Noonan car in front of theirs on the highway just before the accident and that they were attracted by its front wheels wobbling badly. They described how it swerved back and forth across the road and then shot across the road right into the Squirrell car. It was not going fast, they said.

William Urquhart, St. Ann's, said he had just turned on to the highway. Both the Noonan and Patterson cars had just passed him. He saw the Noonan car swerving but did not see the actual crash. He believed wind had caught the car and caused Mrs. Noonan to lose control. The crash happened just as the cars emerged from the shelter of a bush which broke the force of the wind, he said.

Mrs. Catharine Noonan, Toronto, driver of the car which was in collision with the Squirrell machine, was given the protection of the Court before testifying. She swore that she had been driving for the past 10 years and held a license all during that period. "I remember passing a car. I got right back on my own side of the road. Then I felt the car swerve and take me out of the path in which I was driving. I righted it. Then it seemed as if something took hold of the car and lifted it out of the path I was driving in. I exerted all my strength in an effort to right the car but I could not. It very definitely pulled my car to the left. I was going 35 miles an hour or less", she swore.

Mr. Lancaster offered to do what he could on the Brantford claims for 10 per cent. Now get this "That the secretary tender the thanks of the company to BRANTFORD, Smithville and Berlin for their hospitality". Sue 'em with one hand and pat them on the back with the other. Great game. Mr. Noakes asked the Captain of the running team what disposition they intended to make of the money won in Berlin, \$75 and Smithville \$15. A long and bitter discussion then followed and finally it was decided that expenses of team \$52.50, be paid and balance of \$27.50 be expended for some memorial of the victories and a committee was appointed to spend same.

Following is the verdict: "We find that William J. Squirrell came to his death from injuries received in a motor accident on No. 20 highway in township of Gainsborough on July 25, 1936, by reason of collision between a Hudson car in which Mr. Squirrell was a passenger, and a Hupmobile car driven by Mrs. Catharine Noonan, of Toronto. We find that accident was caused by reason of car driven by Mrs. Noonan becoming out of control".

CITIZENS HEAR  
DETAILS OF HOME  
IMPROVEMENT PLAN

(Continued from page 1)

Dominion Home Improvement Loan Guarantee Plan, are not to be added to the assessment during the period of three years over which prepayment of the loans may be made. If dwelling thus improved is subjected to increase in assessment the onus is placed upon the assessor to prove that the increase is occasioned from some cause other than the added value due to such improvements.

## Encourages Improvements

The fact was also emphasized that not only does the plan stimulate building activities among the home owners utilizing it but also among others who are in a position to finance their own projects. They too are encouraged to improve their properties giving employment to those in need of it.

It was pointed out by Mr. Strathy that for every dollar spent under the Home Improvement Plan, three dollars was expended by those who do not receive loans. The fact that their neighbors improved their properties encouraged them to do likewise.

Literature Available

It was decided to place literature in some of the stores and places of business where it would be available to those interested.

Bright Business Outlook

A number of those present spoke optimistically of the business outlook for the coming months, the steel industry affording a barometer of reviving business, being particularly busy at the present time.

One of the citizens present predicted that by September 1st every skilled worker would be employed.

held in the armories there from April 7th to 14th.

## Not In Position To Do So

In reply to suggestions that the town might utilize the Plan to make improvements to a number of properties taken over by the municipality, Mayor Lewis said he did not think there was any use to put any more money into them. The properties had been offered for sale for less than the taxes. He added that the town could not afford to spend money on them. Three had been torn down.

## Showing in Theatres

In order to stimulate interest in the Plan it was intimated by Mr. Strathy that the screen would be shortly utilized to do so and, to be ready next month for showing in the theatres.

## Literature Available

It was decided to place literature in some of the stores and places of business where it would be available to those interested.

## GRASSIE

Mr. and Mrs. Roland Merritt and family of Toronto, spent the Easter holidays with the former's parents, Mr. and Mrs. Jason Merritt.

Mr. and Mrs. Lorne Marshall, and little daughter Shirley, visited with Mr. and Mrs. Reg. Walker on Saturday evening.

Miss Dorothy Duck of Hamilton spent the weekend at her home.

Mrs. Wm. Yorston spent a few days last week in Hamilton.

Mr. and Mrs. Walter Piott and family of Stoney Creek were the guests of Mr. and Mrs. F. Black's home last Sunday.

The April meeting of the Ladies' Aid is being held at Mrs. Wm. Duck's home this Wednesday. The mid-week meeting of the Church was held at Mr. and Mrs. F. Black's home last Thursday evening with a good attendance. This week's meeting is being held at the Smithville Presbyterian Church, when the Grassie Young People will be the guests of Smithville Y.P.S.

Mrs. Lloyd Jacobs and son, Conrad, spent a few days last week with Mr. and Mrs. Fred Duck.

## GARDENING

By GORDON L. SMITH

The old idea of planting all the vegetables used in one afternoon is a hang-over from pioneer days when both seasons and time were limited. Only a few vegetables were grown in the early days. Seedsmen did not have the variety to offer, and the average man regarded the garden as part of the farm where one crop was about all that could be expected.

**No Excuse For Running Out**  
But all is changed now. Experts point out that there is no excuse for running out of lettuce early in the summer, for example, when after the season for the leaf variety head lettuce could be grown, and then during the hot weather the Cos type.

The latter is a compact, conical-shaped type which defies the heat. Like the head variety, it should be started fairly early, probably a week or two after the first leaf lettuce is sown.

And this range of variety runs

through almost all vegetable classes. There are early, medium and late corn, peas, beets and scores of other vegetables. There are different sizes and shapes to suit various uses, such as salad material, pickling, canning, etc.

### Easily Grown Flowers

A brilliant garden of flowers, even the kind that the neighbors will regard with envy, is not a difficult creation. True, there are some of the rarer varieties of roses, lilies, gladioli and similar things that require skill and not a little amount of luck. But for the average man or woman, with only a limited amount of time, space and money, there is really a wide range of variety, color and height. Many of these things are almost as easily grown as weeds. Once planted, and properly thinned, they will flourish despite neglect and insects. In this category will come cosmos, marigolds, alyssum, calliopsis, bachelor buttons, calendula and portulaca.

The fisherman who is too lazy to pull up his line occasionally to see if his hook is properly baited, will eat salt pork for his supper.

Husband — Was Mamie pleased when you gave her that lovely uncle for her birthday?

Wife — Yes, but she cried a little.

Husband — She did?

Wife — Yes, she said it was her first slip.

A woman using rouge reminds one of a fellow using intoxicating liquor — the longer they use it the more they take.

The prisoner was being tried for stealing a pig, and a conscientious witness, to whom the accused was said to have confessed, was being examined. The witness was asked to repeat the exact words of the accused.

Witness — He said, sir, he took the pig.

Judge — Did the witness say "He took the pig" or "I took the pig"?

Witness — Oh, your honor, he said he took it. Your honor's name was not even mentioned.

Health should be prized above everything else because it is the essence of happiness.

Airman (after landing in a tree) — I was trying to make a new record.

Farmer — You did. You're the first man to climb down that tree before climbing up it.

The old-fashioned man who used to go around the court house square and pay his bills every Saturday has a son who buys everything in monthly installments.

Teacher — What lesson do we learn from the busy bee?

Smart Boy — Not to get stung.

It is easier to keep up than to catch up.

Uncle Josh (to his visiting nephew) — First time you've ever milked a cow, is it? Well, you do a darn sight better than most city fellows do.

Nephew (flushing with pleasure) — It seems to come natural somehow. I've had a good deal of experience with a fountain pen.

The trouble with getting in on the ground floor is that it so often has a trap door into the cellar.

Friend — Did you get any replies to your advertisement that a lonely maiden sought light and warmth in her life?

Spinster — Yes, two from an electric company and one from the gas company.

If a man's got the money, he might as well let his wife have what she wants, first as last.

The difference between success and failure is that the former lives last month's income and the latter lives on next month's.

An L. O. U. is one kind of a paper wait.

In the House of Commons last week Viscount Cranborne, under-secretary for foreign affairs, said this propaganda was giving "cause for anxiety" and was being watched closely by the government.

The new transmitters are to have a power of 50 kilowatts, compared with 15 kilowatts of the existing service. Twenty-two new aerials are being erected.

A contract with newspaper enterprise association for still pictures brought the babies, who will be three years old May 28, \$12,323.19 from April 1, 1936 to Dec. 31, 1937.

Of the expenditure of \$95,996.53 the guardians spent \$75,549.7 on the four buildings that are dotted around the Dafco nursery property near Callander and on improvements to the property.

The other \$38,341.56 was spent on household expenses, salaries of nurses, guards, orderlies, housekeepers, Dr. Dafco's secretary, a secretary-treasurer for the board of guardians. There were audit fees and travelling expenses for the secretary-treasurer, W. M. Flannery of North Bay, and for government officials who negotiated contracts for the quints.

Dr. Dafco received professional fees of \$200 a month from May, 1935, to Jan. 31 last, the accounts show. In addition he was paid \$537.17 in expenses. Nurses and guards were paid roughly \$100 a month.

\$200 TO PARISH PRIEST

The quintet Roman Catholics, made a contribution of \$200 to their parish priest over a nine-month period and their parents received \$100 a month.

## Chorines Make Better Wives Than College Girls, Says Actress

Sophie Tucker Believes Business and Marriage Are Alike in That Both Include Many Hard Knocks

HOLLYWOOD, Calif. — A man looking for a wife ought to pick himself some nice chorus girl and settle down—it's Sophie Tucker, the "red hot momma," speaking.

The obvious attributes of a chorine to most men are those shown to best advantage during the floor show, but Miss Tucker listed some other strong selling points.

"Chorus girls make better wives than college girls," she declared recently and explained:

"Business and marriage are a great deal alike, in that both include many hard knocks. Let's take the college girl and place her against a screen dancer.

"The dancer has known good and bad days—days during which she didn't know where her next meal was coming from. Yet, she has learned to take it with a smile and keep on plugging."

This, insists Miss Tucker, blues singer, is fine prepning for the business of matrimony. A chorus girl doesn't grumble or complain much. Any husband ought to appreciate that.

They're good housewives, too:

"Most dancers have learned, because of their salaries and the necessities of their keeping well-dressed, that it is cheaper and more enjoyable to cook their own meals instead of going to restaurants.

"In the same manner, they have learned to budget themselves, resulting in the fact that when they get something nice they really enjoy and appreciate it. They can cook, sew, budget and be good companions."

Miss Tucker should know about chorus girls. She's been on the stage since 1906, and all over the world are ex-chorus girls she has known. The fatality rate among these marriages is comparatively low, she said.

As we drove along the road near the golf club the other day we were pained to see that several acres of lovely bushland had fallen before the woodsman's axe. Hundreds of half-grown trees had been cut down for firewood and were neatly stacked against next winter's use. Every tree, even small saplings, had been cut down. Possibility—it is the intention to clear the land for farming. We hope so. There have been altogether many fine bushes stripped of all their trees in this district, however, without any intention of raising crops on them, from lands which are of little use for anything but growing

weeds. The old-fashioned man who used to go around the court house square and pay his bills every Saturday has a son who buys everything in monthly installments.

Teacher — What lesson do we learn from the busy bee?

Smart Boy — Not to get stung.

It is easier to keep up than to catch up.
